Date Application Received:	January, 1995
Date Project Completed:	April, 1998
Project Duration:	3 years, 3 months
Contaminant Group(s):	Metals (Lead), Semi-Volatile Organic Compounds (SVOCs)
Media Cleaned Up:	Surface Soil
Cleanup Goals Achieved:	Tier II Nonresidential
Deed/Land Use Restrictions:	Nonresidential

Project Description: The site was previously a salvage yard and trucking terminal. Currently, the facility is a holding facility for undriveable automobiles. The applicant desired to document that the previous activities did not impact the surface soil with semi-volatile organic compounds and lead. The sample analysis conducted on-site demonstrated that constituents were below health protective levels and that no further action was required.
